

## EDUCATION

---

**WELLESLEY COLLEGE**, B.A. Computer Science, May 2016

**UNIVERSITY OF OTAGO**, Dunedin, NZ, Semester Abroad; Computer Science, July 2014 – November 2014

**Relevant Coursework:** Data Structures, Algorithms, Theory of Programming Languages, Computer Systems, Database Theory & Applications, Languages & Automata, Computational Biology, Computer Security, Combinatorics & Graph Theory, Number Theory, Fundamentals of Engineering

**Proficient:** Java, JavaScript, C, HTML/CSS, Bootstrap, Scheme, Unix/Linux

**Can get by:** Python, Ruby, Node.js, JQuery, MySQL

## EXPERIENCE

---

**TETRASCIENCE**, Software Development Intern January 2016 – February 2016

*HTML/CSS/Node.js, Bash Programming Language*

- Developed a Node module for converting data sets into different representations that could be used for the TetraScience Client Dashboard and for PDF generation of data reports.
- Overwrote regular network configuration of the TetraScience device so that it was compatible and synchronized with 2G/3G network/Wi-Fi dongles upon boot.

**MIT APP INVENTOR**, MIT App Inventor Development Team January 2015 – January 2016

*JavaScript/Java/Scheme*

- Sustained and implemented debugging features across the browser/Android live-development link.
- I was awarded funding through the Wellesley College Research Program and NSF grants.

**COMPUTER SCIENCE TUTOR**, “Inventing Mobile Apps” September – December 2015

I tutored for a course titled “Inventing Mobile Apps” where students learn to develop Android Apps using MIT App Inventor. I held regular help room hours and communicate with students who seek extra help.

**WELLESLEY COLLEGE MAILROOM** June 2013 – May 2016

*Student Manager* (September 2015 – May 2016)

## LEADERSHIP

---

**WELLESLEY WHIPTAILS ULTIMATE FRISBEE**

*President* (January 2015 – May 2016): Organized practices and tournaments, liaison between the 60-person club and Wellesley College Administration, oversaw other Executive Board positions, managed team memberships and registrations.

*Treasurer* (September 2013 – May 2014): Managed team money, kept good bookkeeping, applied for funding, oversaw Fundraising and Merchandise Chairs.

**FIRST YEAR MENTOR** September 2015 – May 2016

I was selected to mentor first year students as they join the Wellesley community. Throughout orientation week and the following semesters I provided support and guidance to students as they acclimated to the college environment.

## PROJECTS

---

**For Teeth, In progress**

Rebuilding the website for a dental care business.

**PennApps Whurr?**

JavaScript web app to suggest activities that are available and nearby utilizing the Foursquare API.

**M&M Game**

Built an expanded version of the Peg Game using JFC/Swing.
